

DEGREES & CERTIFICATES

LOGISTICS ASSISTANT CERTIFICATE:

The one-semester certificate program is designed to provide students a basic logistics foundation for entry level professional jobs in warehouse operations, distribution center operations, inventory control, production planning, purchasing, customer service or import/export operations.

PROGRAM LEARNING OUTCOMES

Upon satisfactory completion of this program, the student should be prepared to:

1. Describe key logistics and supply chain functions and processes.
2. Apply essential logistics and supply chain concepts.
3. Demonstrate essential knowledge and skills to work successfully in an entry level professional job in the logistics and supply chain industry.
4. Apply fundamental team working skills.

PROGRAM REQUIREMENTS

To earn a Logistics Assistant Certificate, the student must complete all required coursework. Each course must be completed with a "C" or better.
